WHY FIRST RESPONDERS PREFER THE TAILS SYSTEM

PROTECTION

Innovative design features maximize protection and durability.

ENDURANCE

Precise fit and advanced patterning reduces reduces physical stress.

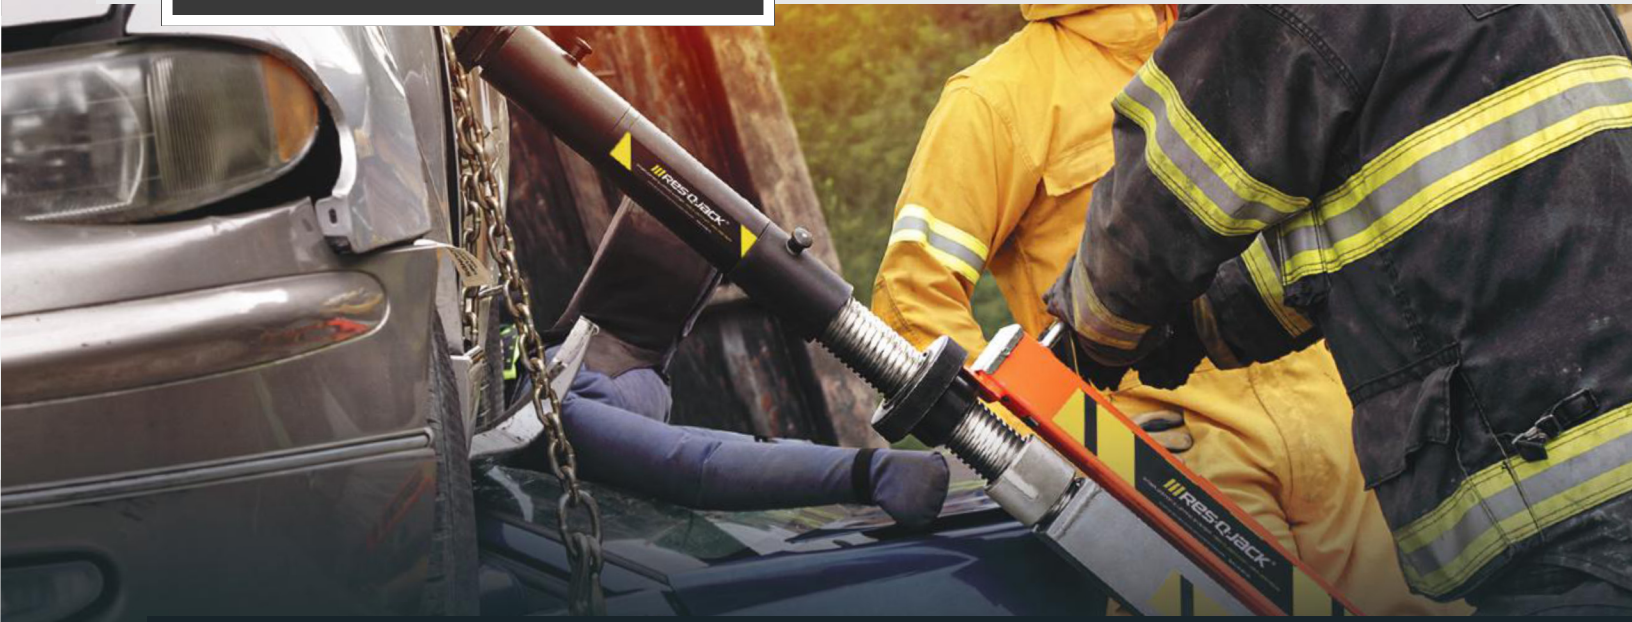

AGILITY

Redesigned ergonomics enable unobstructed movement.

COMFORT

Enhanced ventilation and reduced weight improve wearability.

RES-Q-JACK®
STABILIZATION ELEVATED

HEAVY-DUTY VEHICLE STABILIZATION & LIFTING STRUT

At Res-Q-Jack, we take vehicle stabilization to the next level by offering the most versatile vehicle stabilization and lifting struts on the market. We offer struts ranging from light-duty to heavy-duty, both pin-operated and pin-free, each with a 2:1 safety factor. No matter your needs or your budget, Res-Q-Jack makes sure you have the right tool for the job. And with free training with every kit purchase, we make sure you get the most from our tools.

APEX
X-STRUT® SERIES LIFTING STRUTS

The NEW Apex X-Strut takes the popular, user-friendly design of our Auto X-Strut and beefs it up for even more capability. This well-rounded strut features the combination of a threaded inner tube and a square outer tube, allowing for a built-in ratchet on the standard strut, and an internal positive stop to eliminate the risk of over extension. The Apex accepts all pin-free end fittings on both the standard and short size strut.

READY RACK AND PPV FANS

WALL MOUNTED RED RACK

The Wall Mounted Red Rack is a rugged, modular, and time-tested PPE storage system. Designed for maximum air circulation, Red Racks help PPE and gear dry faster and last longer.

Our locker system creates maximum organization which helps shave precious extra seconds off your response times; helping you serve your community better!

Red Racks can be ordered in any run length thanks to our exclusive modular design.

TEMPEST

Fighting for performance

TEMPEST TECH SERIES

The Tempest® Tech Series is an innovative line of positive pressure blowers featuring ergonomic design features and leading edge motor technology and performance. Tech Series blowers are engineered for performance, durability, versatility, and ease of use. The VS-1.2 battery-driven blower features a taller fold down handle to make deployment and storage easier. It delivers a level of utility and performance found with no other battery-driven blower.
